

## Our Motivation

At GIDP, we believe the kind of education and training an individual receives can substantially direct their probability of attaining their potential and playing a purposeful role in shaping their communities. We believe a holistic education combines formal education, the acquisition of a broad range of skills, a process of self-discovery and substantial exposure to both community and global perspectives.

We aim to be a leading organization providing accessible quality education to underprivileged individuals to realize their full potential. This will integrate delivery of primary and post primary education and delivery of community nutrition and health programs. As such we will put emphasis on provision of quality curricular and co-curricular education, health education, use of IT in education and life skills, providing incentives for children to remain in education and for parents to keep their children in education.

## Sponsor-A-Teacher

If you would like to sponsor a teacher please do so by means of electronic transfer to the school's account in Nairobi. We are delighted to provide references from previous and current donors. If you would like a reference or contact details of a previous or current donor please contact the Manager Betty Nyagoha.

## Gatoto Integrated Development Programme

### Our Mission

To be a leading organization that provides accessible quality education to underprivileged individuals to realize their full potential.

### Our Vision

The right to accessible quality education to all.

**Make a big difference by giving a little.**

## *Gatoto Integrated Development Programme (GIDP): Challenge, Support, Empower*

### **About GIDP**

Gatoto Integrated Development Program (GIDP) is a Kenyan registered NGO intent on delivering high quality educational and health interventions at primary and post primary level by partnering with schools and communities. It was registered in 2006 with the NGO Bureau.

GIDP is motivated by the innate potential of all children; the potential that surpasses survival and gives them a chance to thrive, to become leaders who bring positive change for those around them. Our work was driven by the success of our key partner, Gatoto Community Primary School who in 1994 began providing primary education to needy children from Mukuru Kwa Reuben in Nairobi. The need to increase the impact of what the school was doing and to diversify, necessitated the formation of GIDP - a mid-sized, efficient social enterprise - in 2006. In addition to the interventions in Mukuru, GIDP plans to broaden its interventions in Western Kenya and research possible areas of intervention in the Rift Valley in the near future.

### **What do we do?**

GIDP seeks to make learning experiences for its partners affordable and available through a series of fund-raising activities and a solid financial approach to managing these resources. We aim to be a leading organization in Kenya that provides accessible quality education to underprivileged individuals to realize their full potential.

The primary school, our main program, serves about 1,000 pupils from pre-school to Class 8. On-going efforts are in place to continue improving the quality of our interventions. The success of the school has seen it receive positive perception in the Mukuru community and in educational circles in Nairobi. GIDP has 2 support programs; the post-primary and community support programs. The post primary program currently supports 150 students who are alumni of Gatoto Primary School while the community program has 60 families. In addition, GIDP offers post primary support to students in western Kenya from Mama Joy Junior School.

### **Supports Us**

To fund the cost of teachers:

- €1,200 - will pay the annual salary of a teacher.
- To provide extra tuition for senior students
- €1,200 - will fund the cost of running a 3-week summer course for approximately 650 students (paying for operational costs, teachers' salaries and educational materials)
- Quality: giving children a quality, holistic education.

To appropriately train teachers and maintain a broad curriculum, it costs:

- €10 - to give a child regular music lessons for one year (as part of the school choir)
- €60 - to provide a teacher with one course of professional development training,
- €160 - to run a workshop on HIV/AIDS with 100 children, and
- €290 - to buy sports equipment for ball games for 50 children.
- €15- to buy a shirt and short plus pullover (uniform) for a boy to last 2 years.
- €15 to buy full dress and pullover (uniform) for a girl to last 2 years
